others (REM), MRI applications,
INC only - Contact factory.
Energy Star Rating - Consult
Factory.

Labels

U.L. and C.U.L. approved for
indoor and damp location. See
options for damp location
finishing requirements.

Modifications

Shaper's skilled craftspeople
with their depth of experience
offer the designer the flexibility
to modify standard surface
luminaires for project specific
solutions. Contact the factory
regarding scale options, unique
finishes, mounting, additional
materials/colors, or decorative
detailing.

STARTER COLLECTION

Shaper's exclusive Starter Collection fixtures
are featured throughout the Shaper product
line. The concept of offering highly styled,
affordable fixtures was introduced over
fourteen years ago and has become one of
our fastest growing lines. The design
premise, basic construction, clean lines
and unadorned shapes are highly desirable
in modern architectural environments.

SUSTAINABLE DESIGN

Shaper has a long-standing history of
offering environmentally-friendly fixtures.
The copper and bronze alloys used in our
exterior luminaires feature up to 98% re-
cycled content, contribute less undesirable
air emissions compared to painted alumi-
num and are easy to recycle.

MAGNETIC RESONANCE IMAGING (MRI)

Lighting fixtures for MRI facilities are
specialized and unique, requiring non-
ferrous construction. Fluorescent fixtures
cannot be used due to the ferrous parts in
ballasts and lampholders. Modified incan-
descent fixtures meet the requirements.

ENERGY STAR

Shaper now offers a wide variety
of fixtures that can be provided
with an Energy Star Rating.

QUICK SHIP (QS)

Shaper's Quick Ship program
features over thirty-four fixtures
with finish options such as Satin
Chrome, Natural Aluminum and
Satin Brass and a wide variety of
lamp selections. All products ship
in five days from receipt of order.

Refer to the Icon Legend
Link on shaperlighting.com.
